

Stimulation³

WE'VE TAKEN PORTABLE STIM TO A HIGHER POWER.

Introducing Stimulation³

With the new Trio*Stim™, Mettler puts power in the palm of your hand. Now you can perform three types of therapies: Muscle Stimulation (EMS), TENS, and Microcurrent. All with one fully portable, programmable, battery-operated unit.

There's no cord to tie you down, so the possibilities are limitless. For clinicians, the total portability of the Trio*Stim makes it ideal for muscle re-education or TENS. Plus, the Trio*Stim can be used in the clinic and then sent home with the patient for continued care.

Athletic trainers and home health professionals will also appreciate the

powerful capabilities the Trio*Stim delivers in the field. The Trio*Stim offers new levels of treatment flexibility to anyone who prefers a hand-held, fully portable Microcurrent device.

There's nothing like the Trio*Stim anywhere. Yet this is a value-priced unit, with all the quality and expertise of Mettler built in.

So contact your Mettler representative at 800-854-9305 for more information. And get your hands on the power of the Trio*Stim today.

TRIO*STIM™

THREE VERSATILE STIMULATION THERAPIES. ONE AFFORDABLE PACKAGE.

The Trio*Stim is small enough to fit in the palm of your hand, yet it delivers EMS, TENS and Microcurrent therapies. And that's just the beginning.

Spend a few moments operating the Trio*Stim, with its large, user-friendly LCD screen, message display and four simple buttons. You'll quickly realize that the battery-powered Trio*Stim, despite its small size and price, is packed with powerful capabilities.

Programmability

- Five custom, preset user programs
- Each program offers 10 treatment phases
- In TENS mode channels 1 and 2 can be programmed independently

Safety

- Self-diagnosis
- Constant current output
- Zero start of output
- Detection of abnormal pulse output
- Keylock
- UL listed and CE certified

Versatility

- EMS, TENS, and Microcurrent therapies
- Memory backup
- Low battery power warning message
- Optional AC adapter (120V or 230V, 50/60 Hz)

Contact your Mettler representative today for more information.

Three programmable modes provide unprecedented treatment flexibility from a portable unit.

The lightweight, portable Tri*Stim is small enough to travel anywhere.
